Beaune – Samedi 16 Juin 2012

Autres Hépatopathies

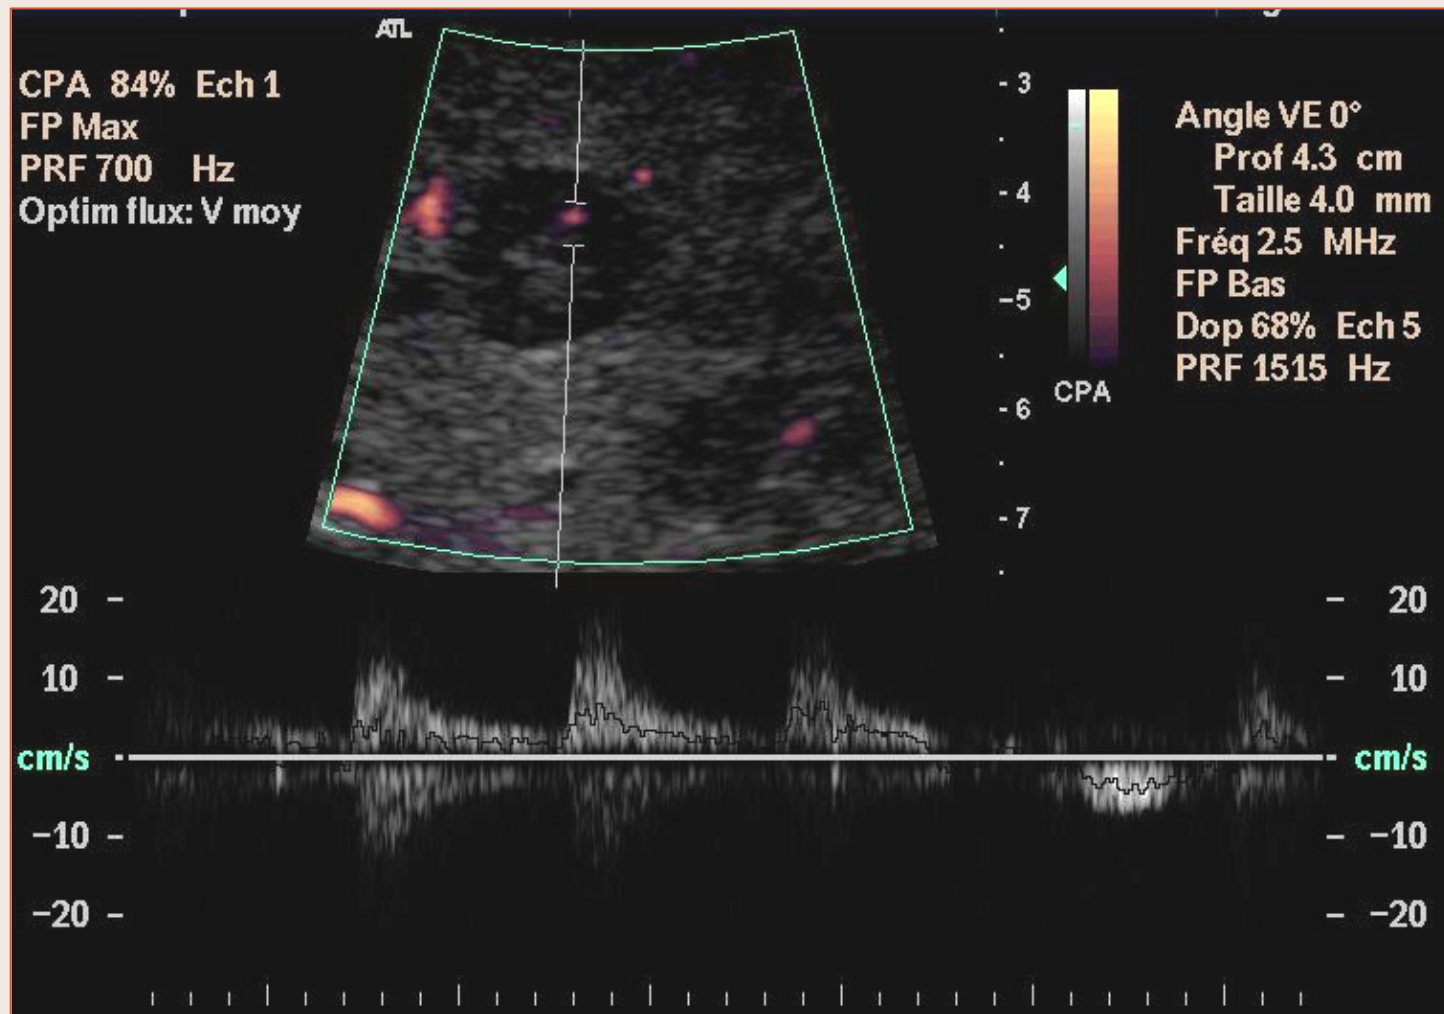

- Tumeurs primitives & secondaires
- Hémopathies, hypersplénisme
- Maladies Vasculaires

Oncologie

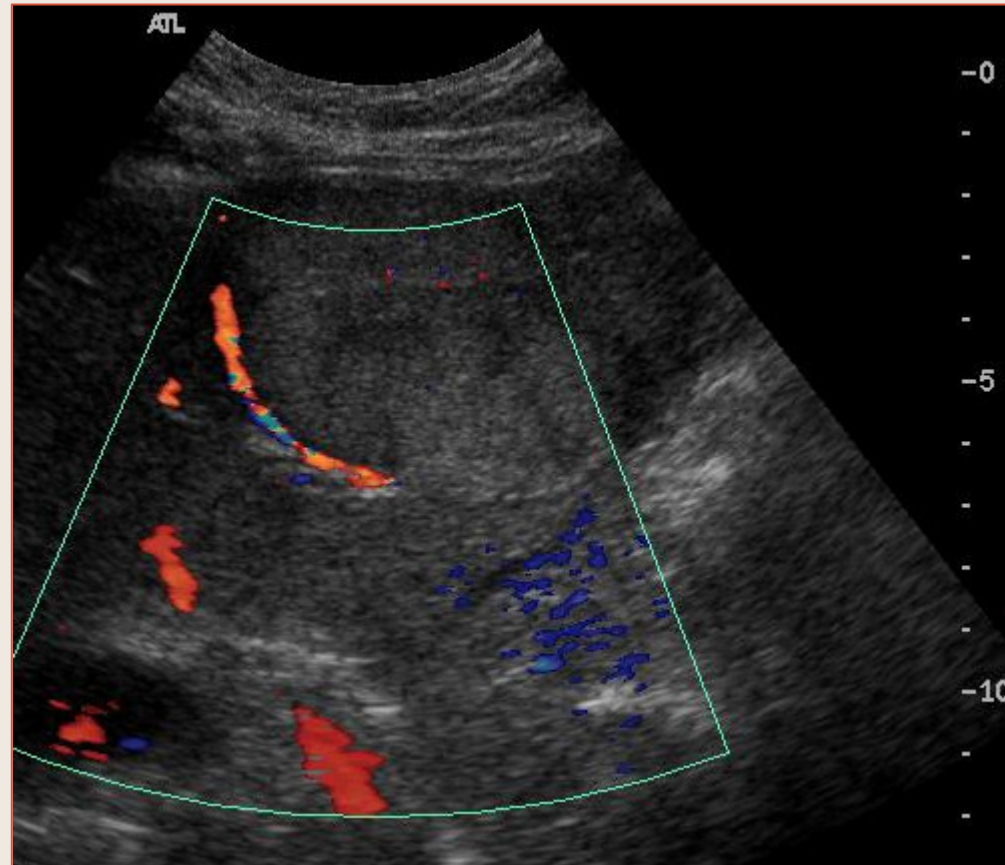

Métastases hépatiques multiples

Oncologie

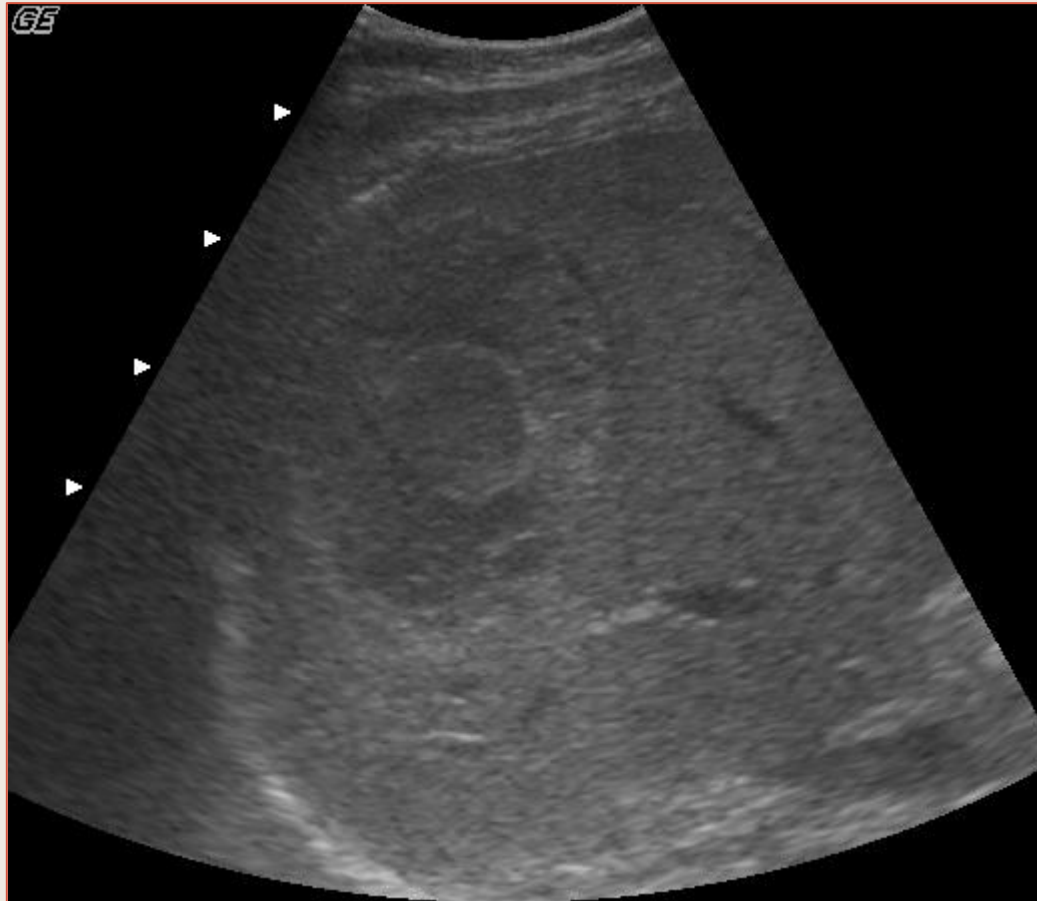

Métastases hépatiques multiples

Oncologie

Hépatocarcinome du foie gauche : refoulement des vaisseaux

Oncologie

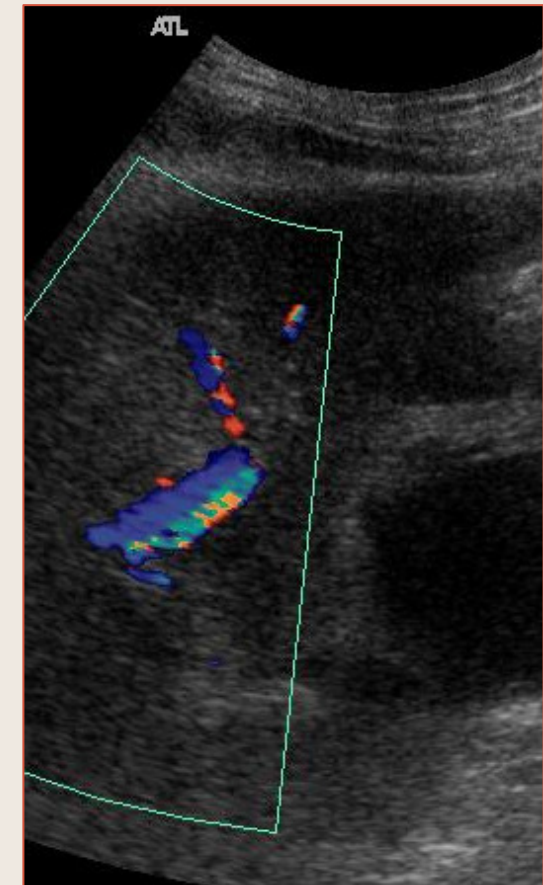

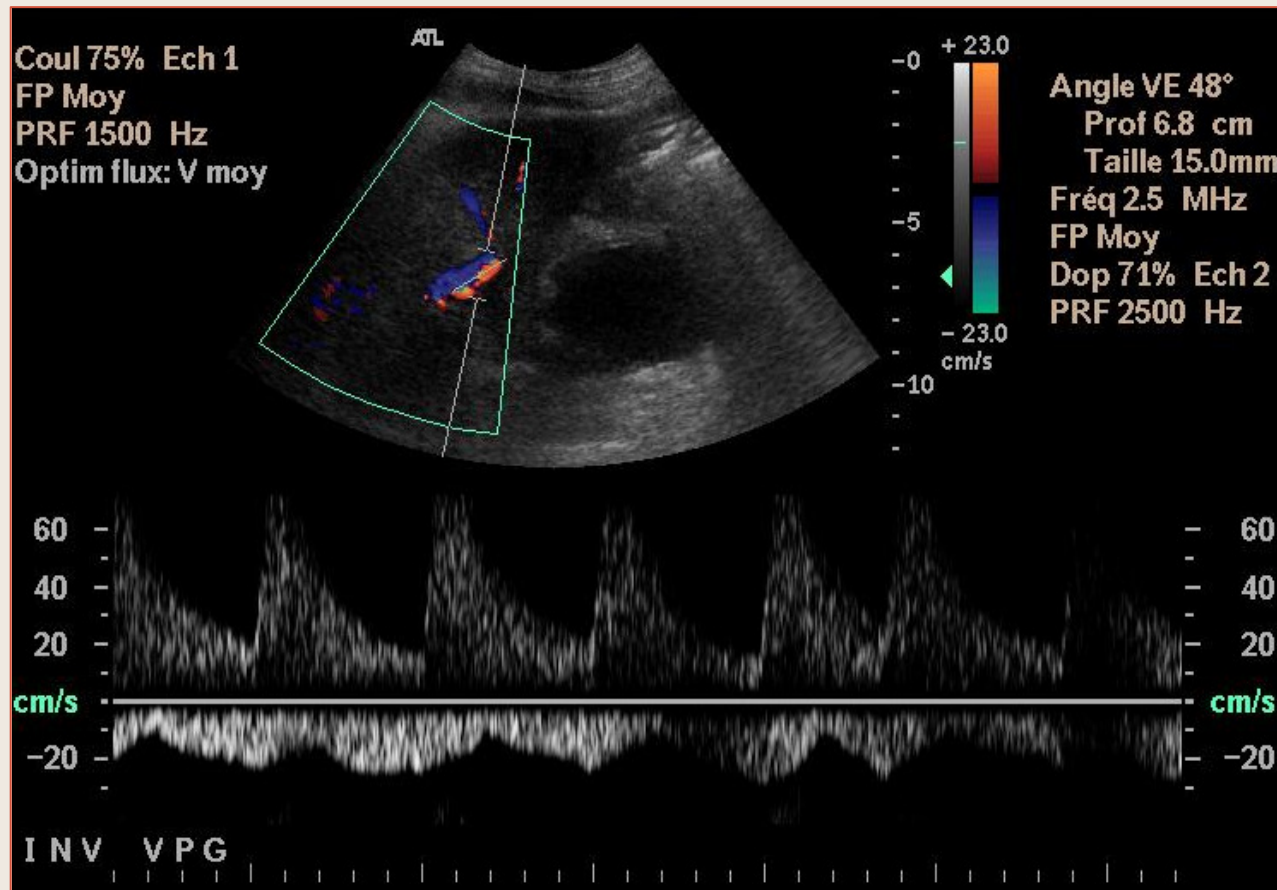

Volumineux angiome du foie droit

Oncologie

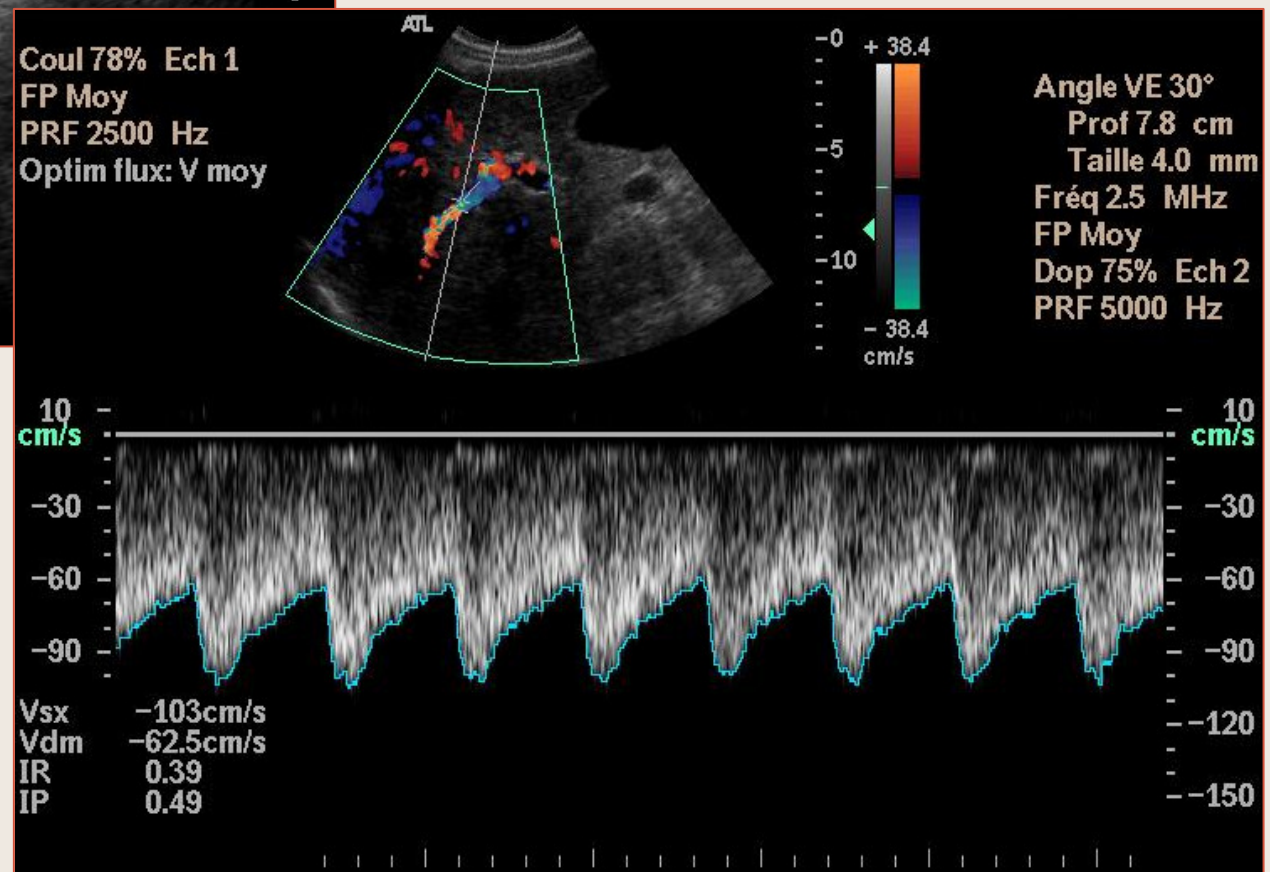

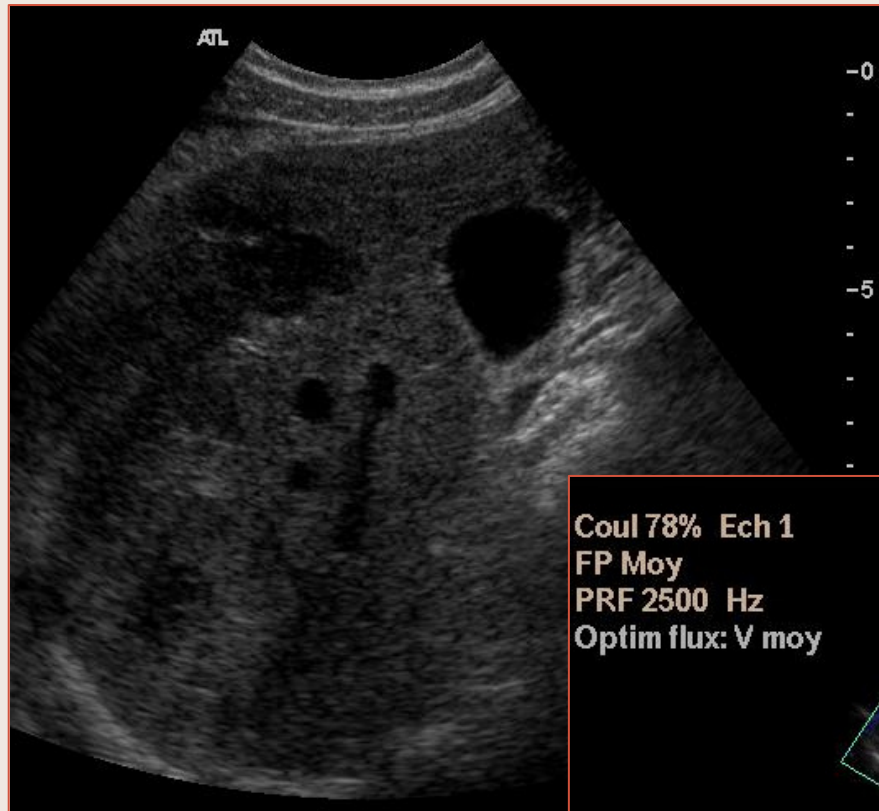

Inversion portale et hépato-carcinome du foie gauche

Oncologie

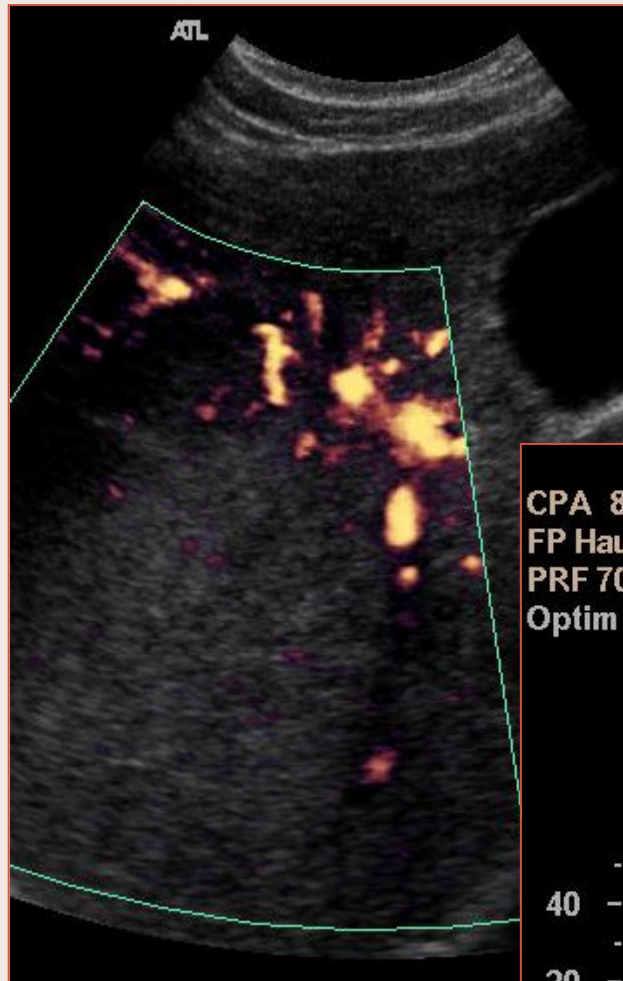

Inversion portale et hépato-carcinome du foie gauche

Oncologie

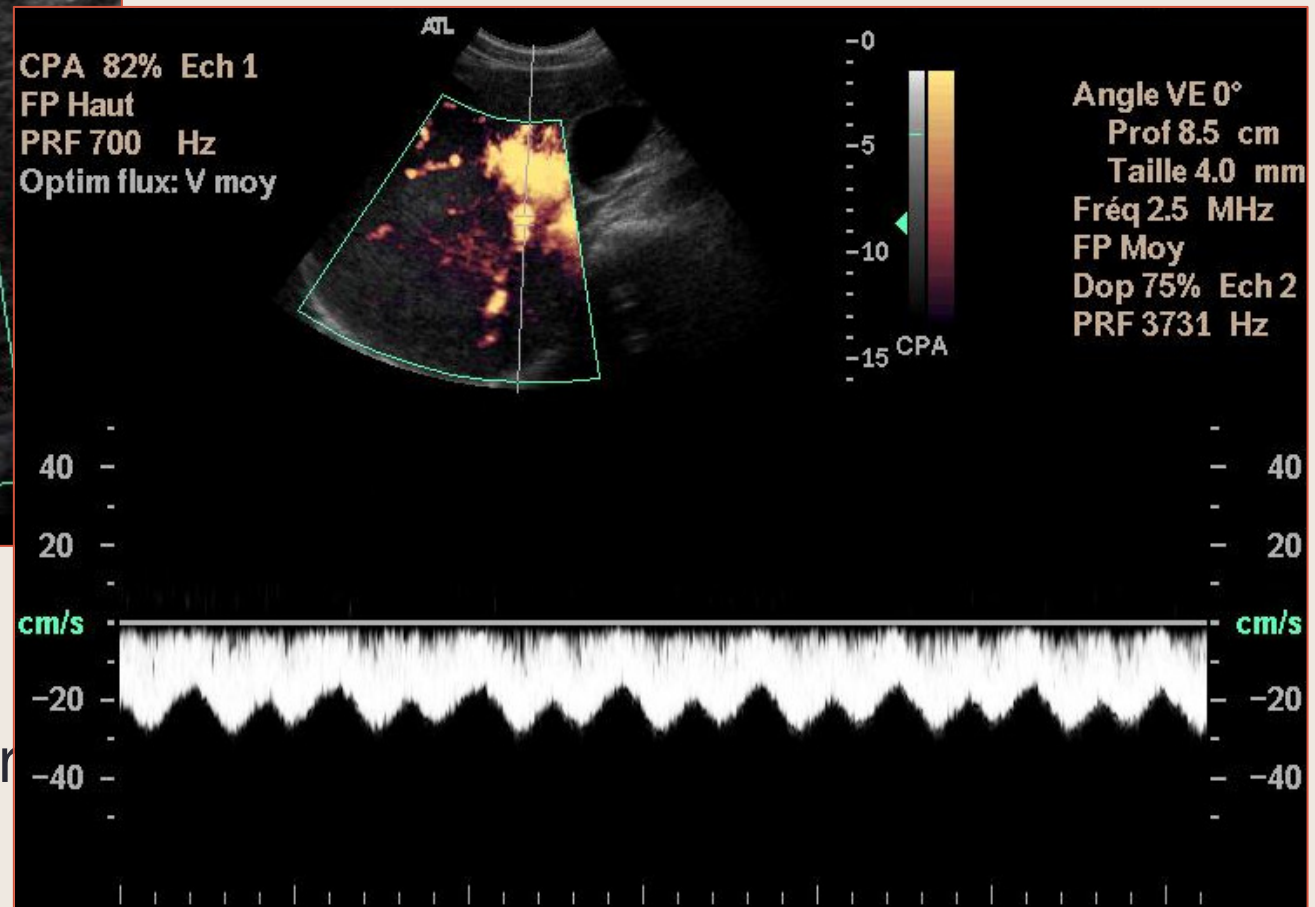

Volumineux
hépatocarcinome
hyper-vascularisé

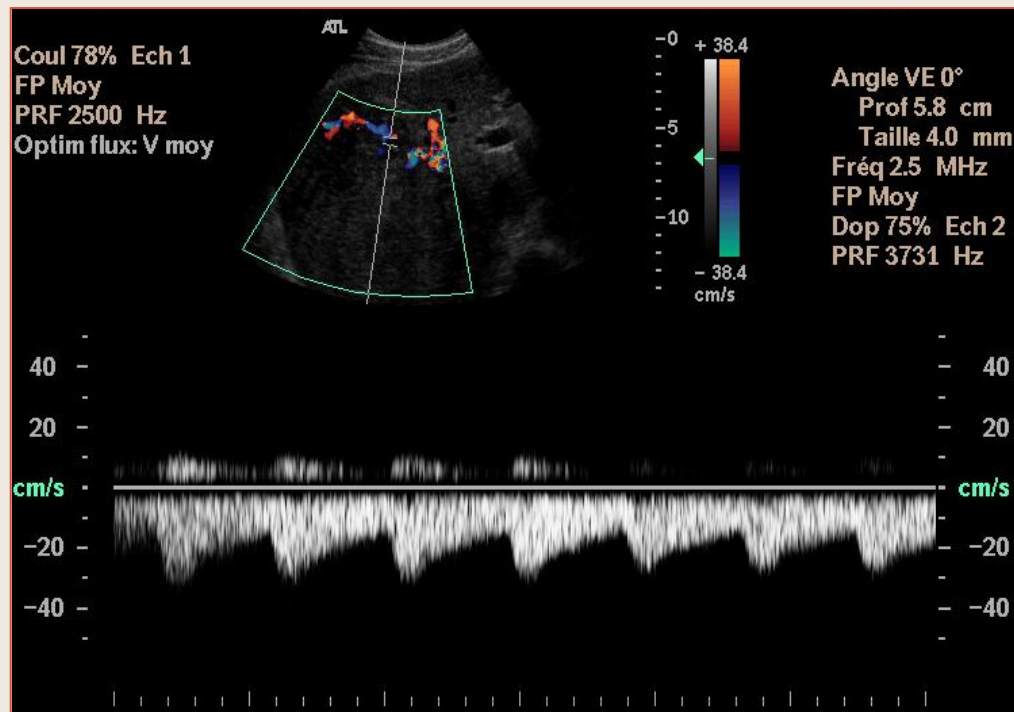

Oncologie

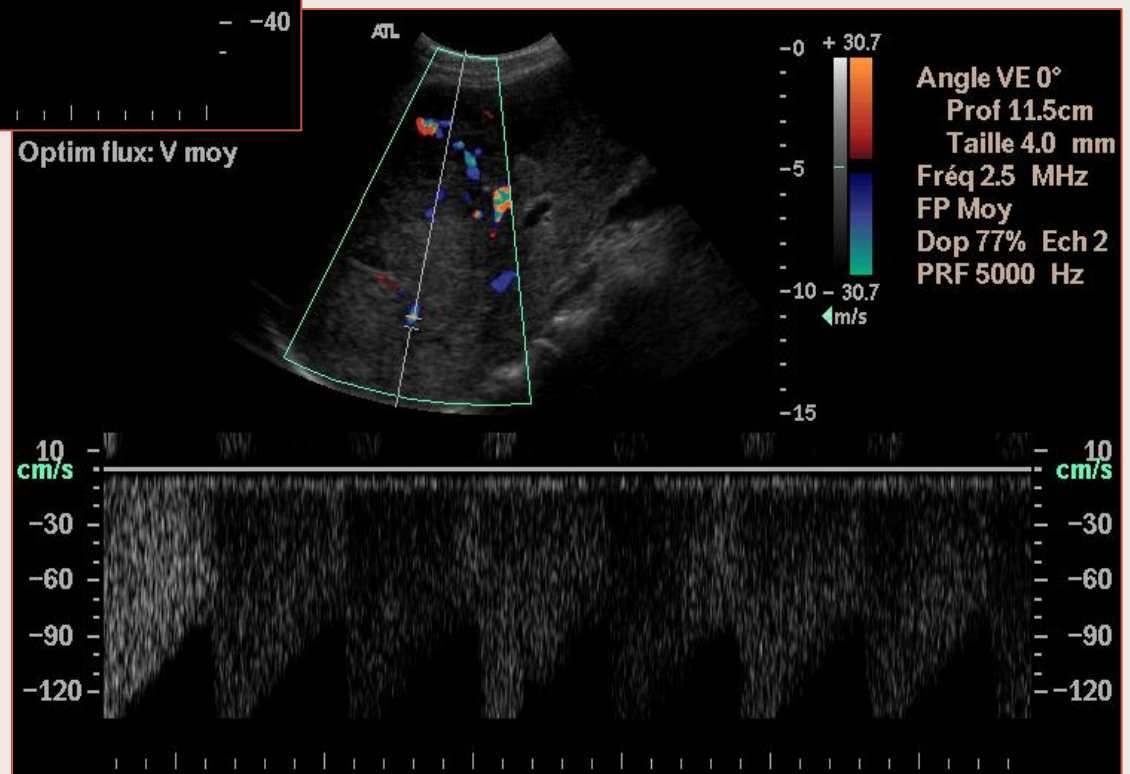

Volumineux
hépatocarcinome hyper
vascularisé

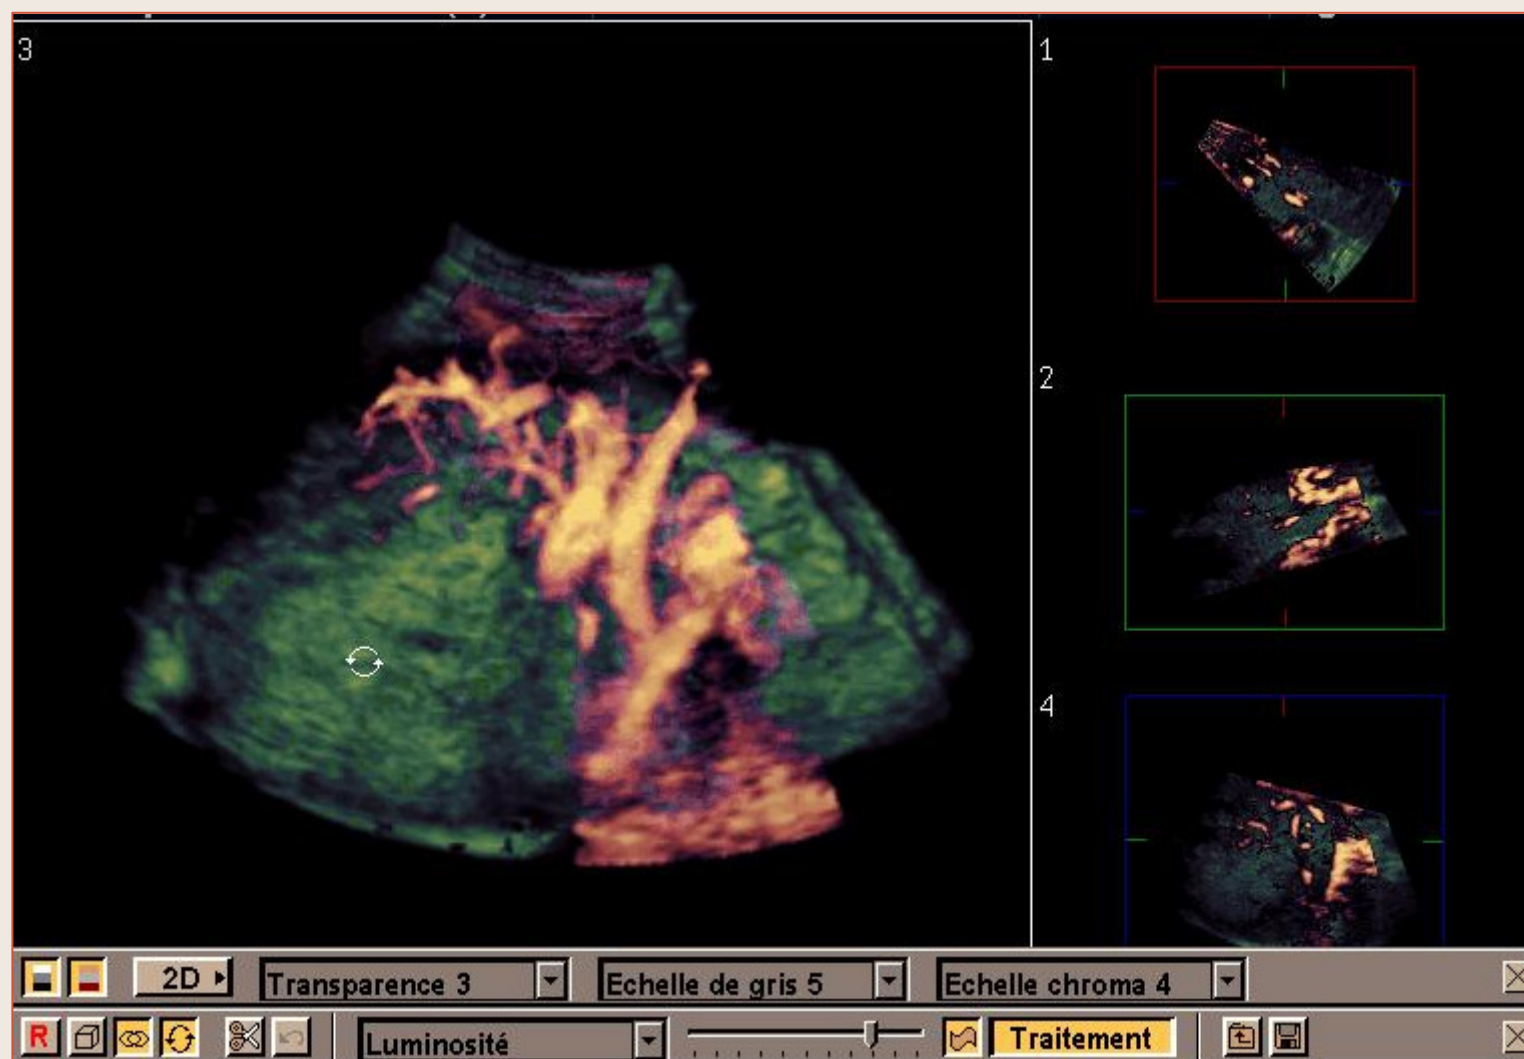

Oncologie

Volumineux
hépatocarcinome hyper-vascularisé

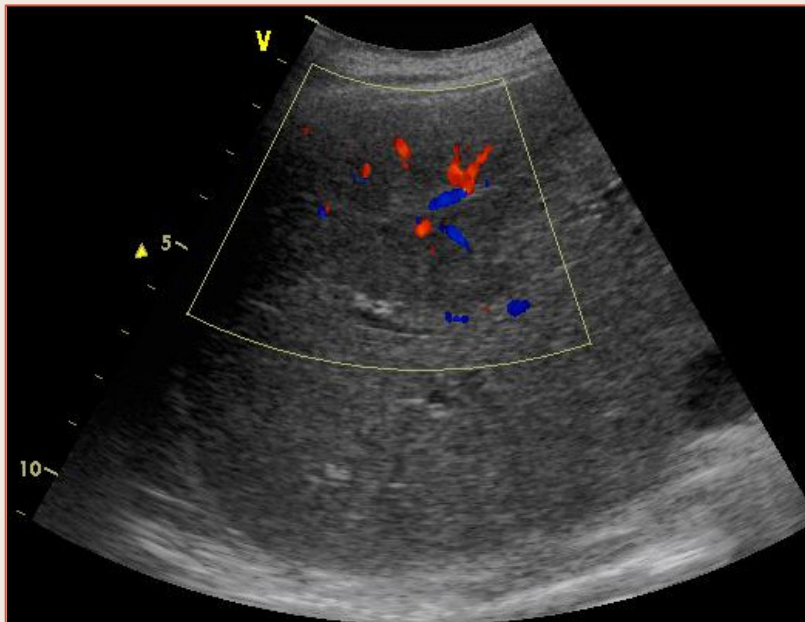

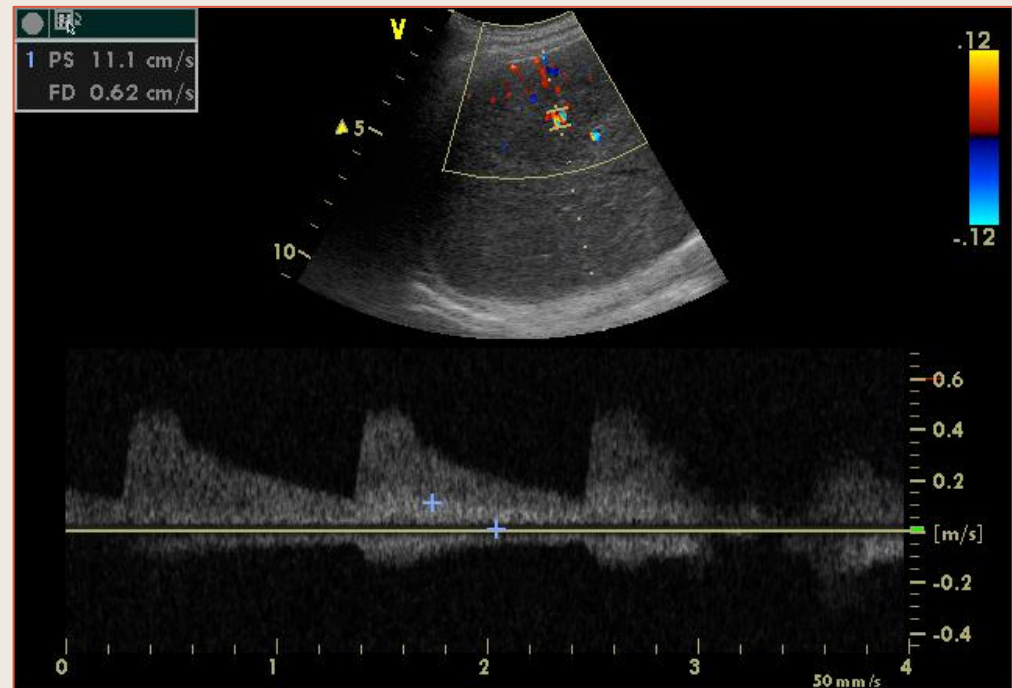

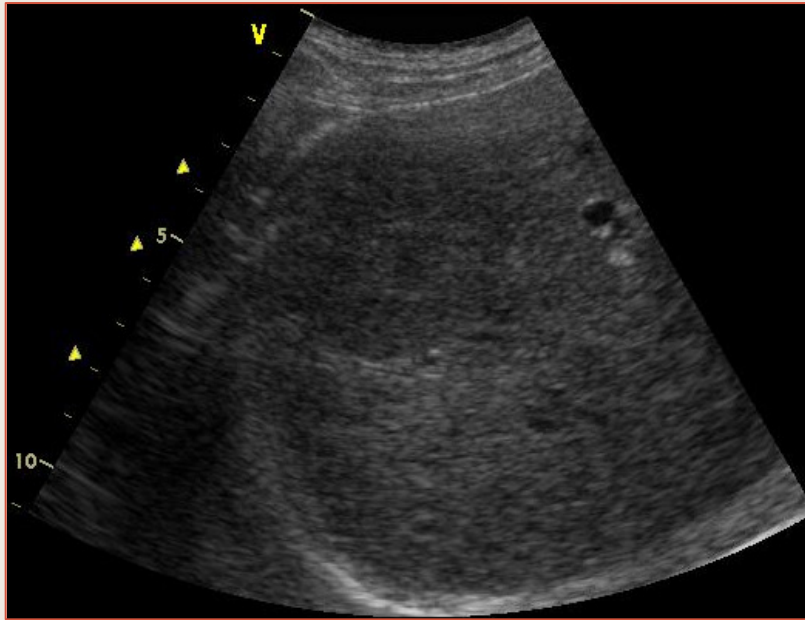

Oncologie

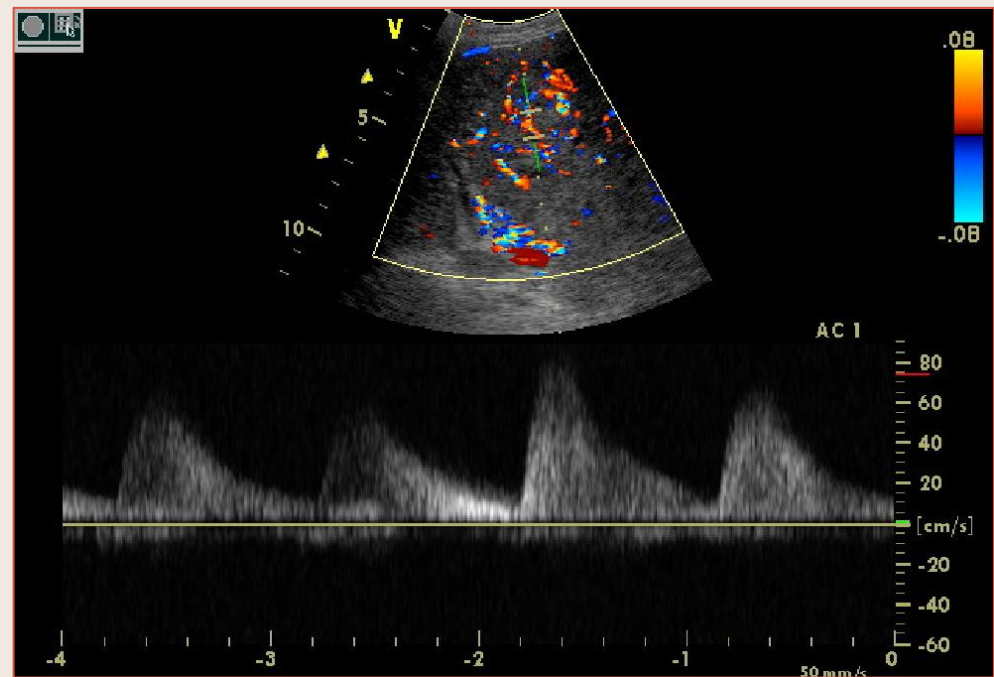

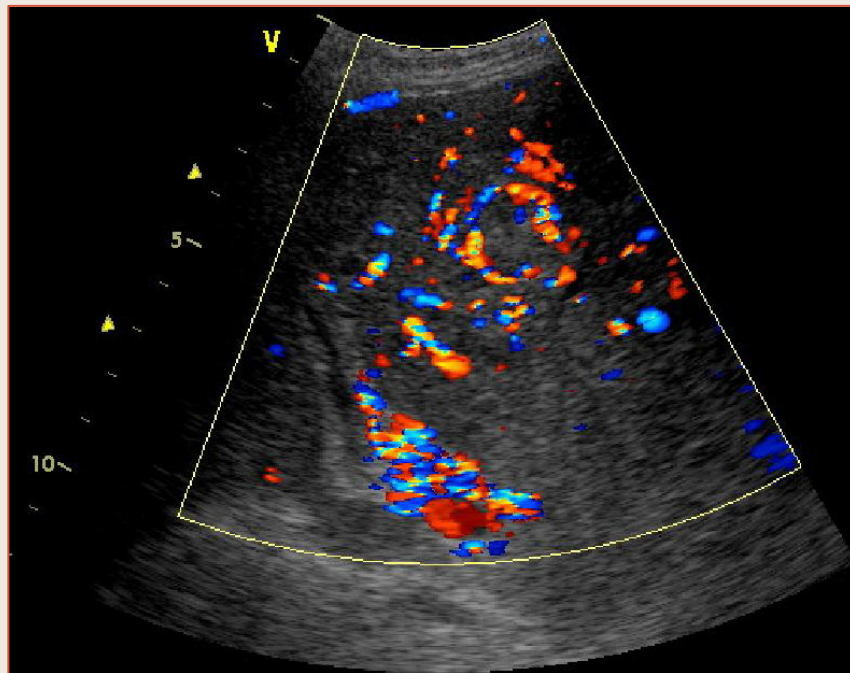

Volumineux hépato-carcinome hyper-vascularisé

Oncologie

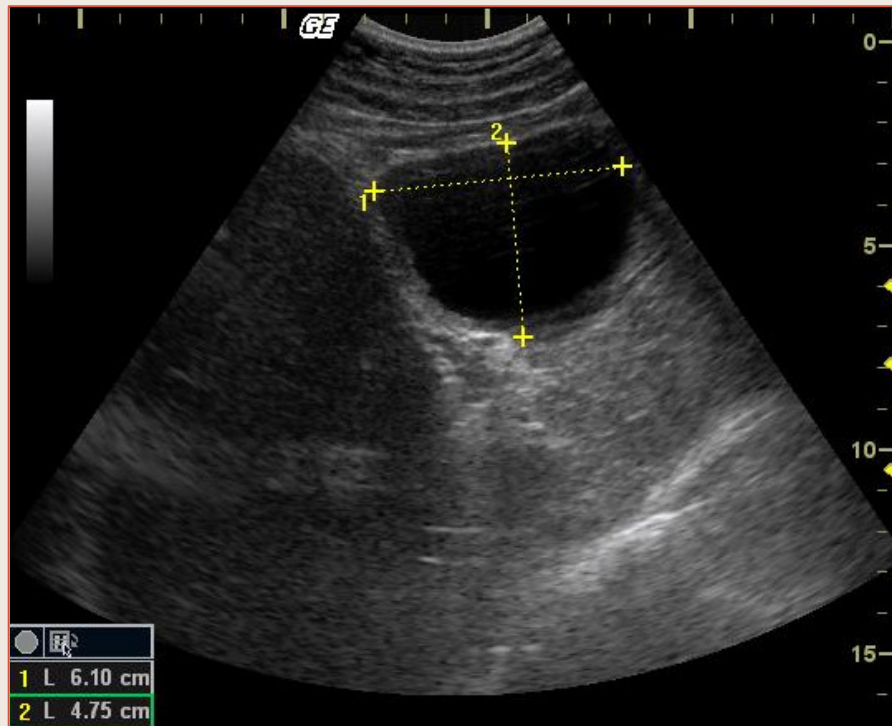

Hépatocarcinome du foie droit

Oncologie

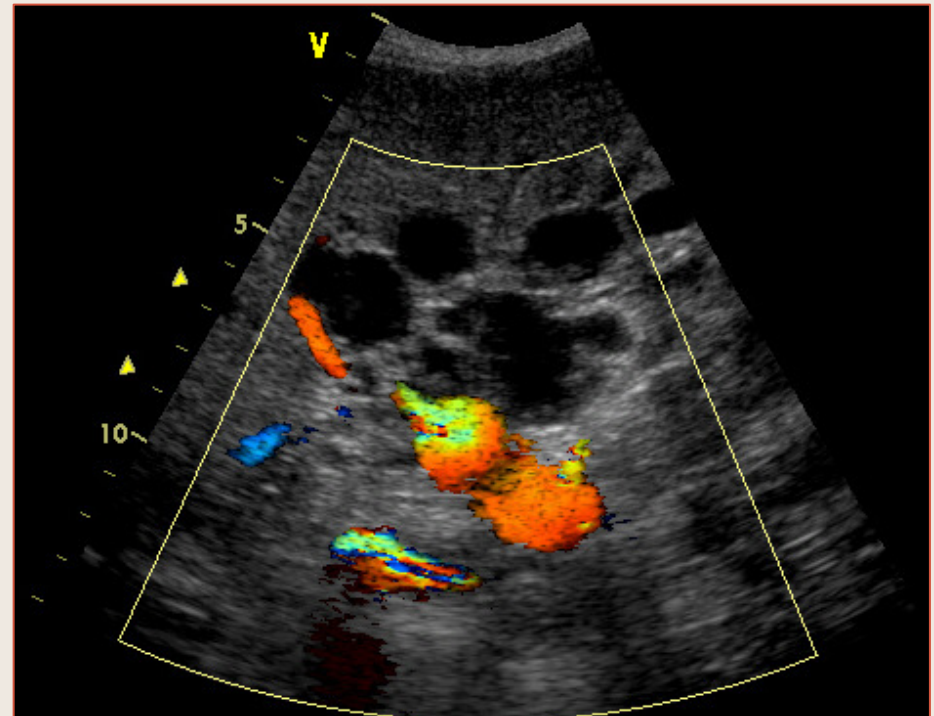

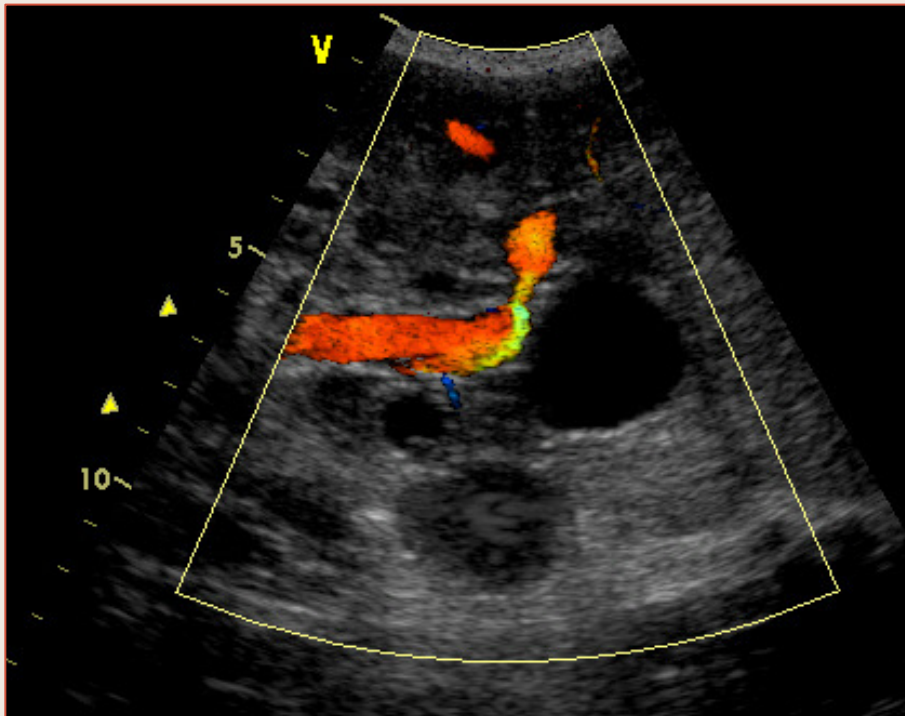

Tumeur hépatique hyper-vascularisée

Kystes et Maladie Polykystique

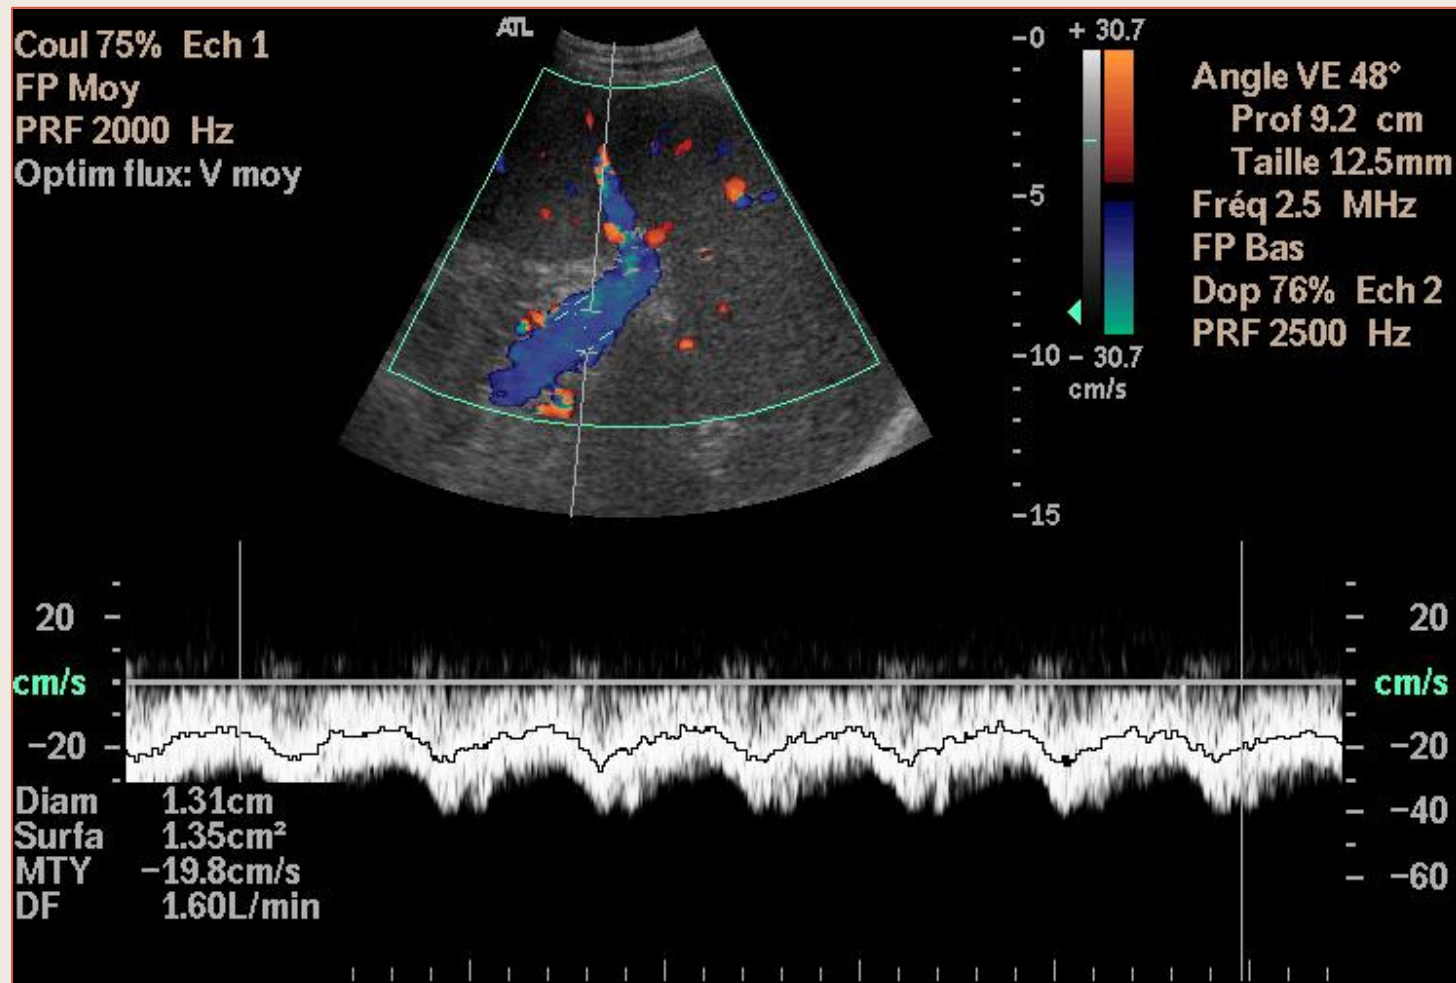

Kyste hépatique du segment IV

Kystes et Maladie Polykystique

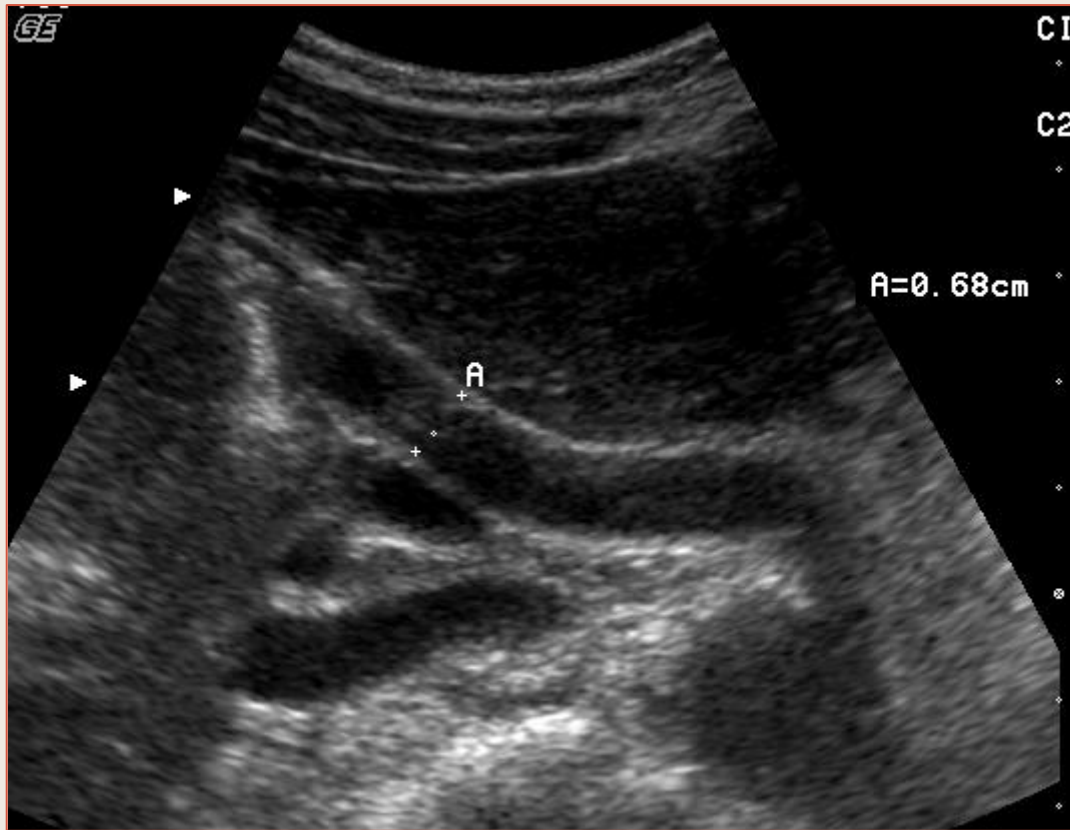

Polykystose hépato-rénale

Hypersplénisme

Hypersplénisme et varices oesophagiennes stade I:
Hyperdébit splénique et portal

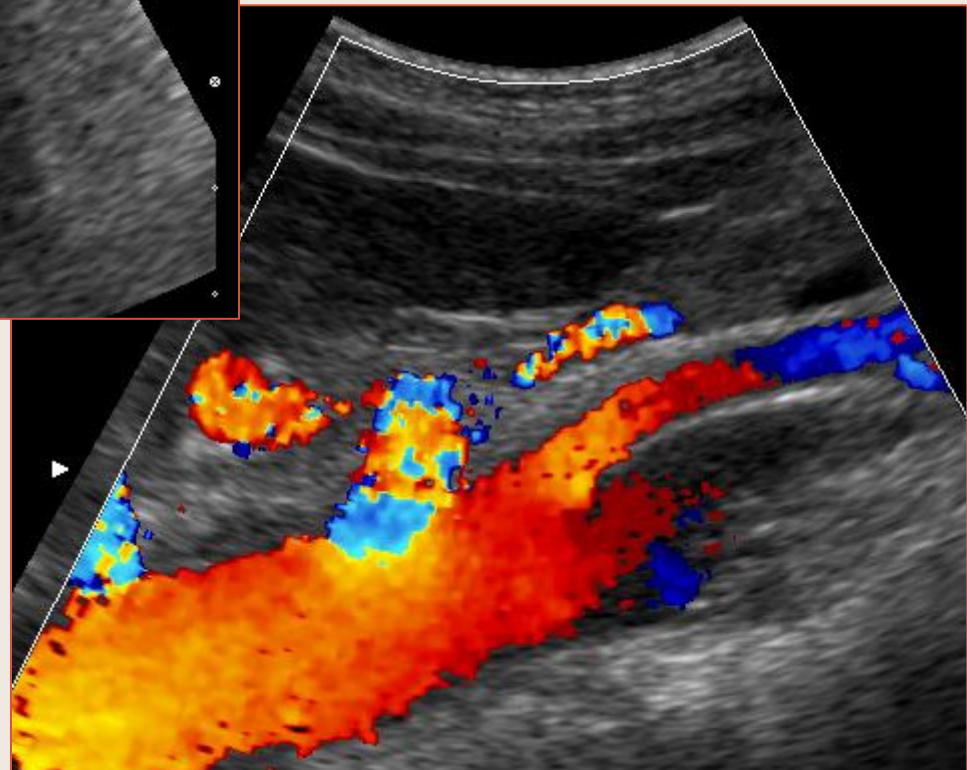

Maladie de Rendu-Osler

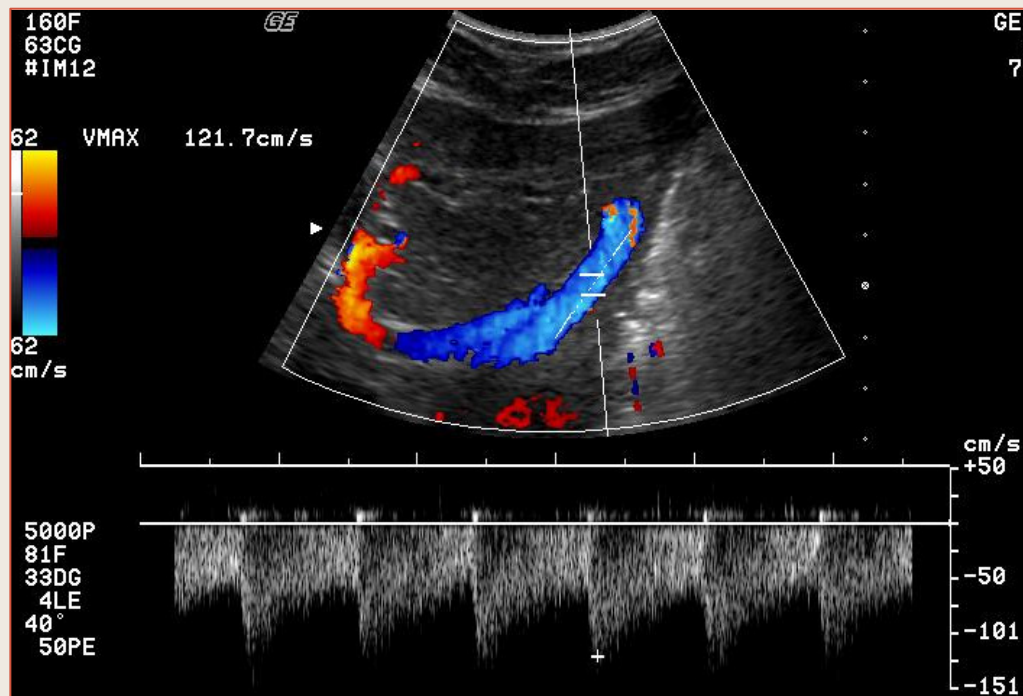

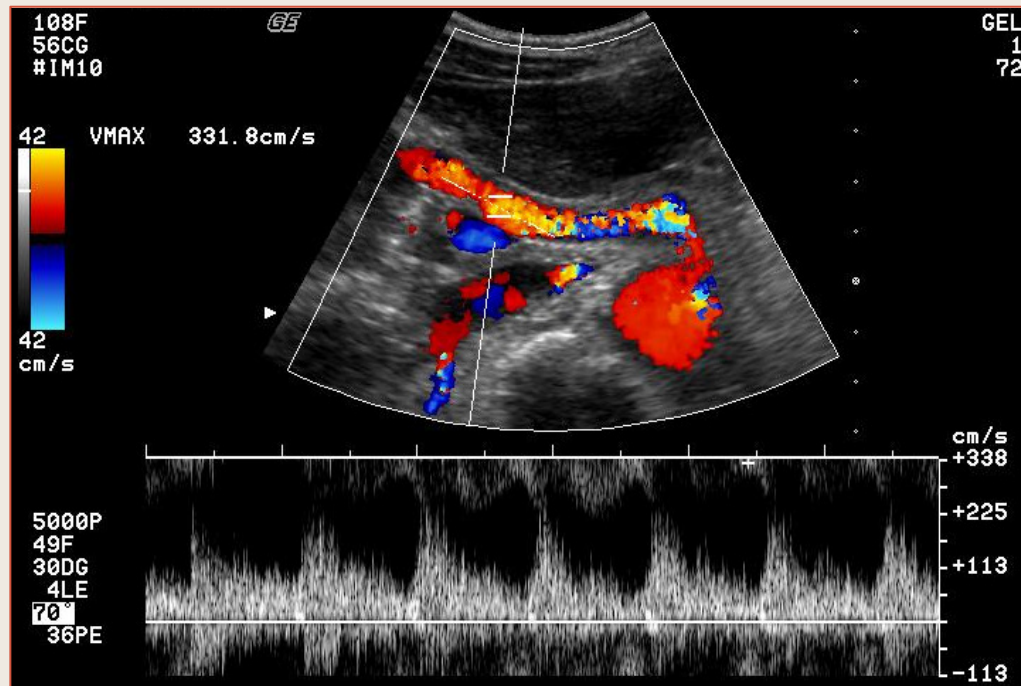

Artère Hépatique dilatée

Télangiectasie hémorragique
héréditaire
(poumons, foie, cerveau – fistules
artérioveineuses)

Angiogenèse anormale avec
prolifération endothéliale

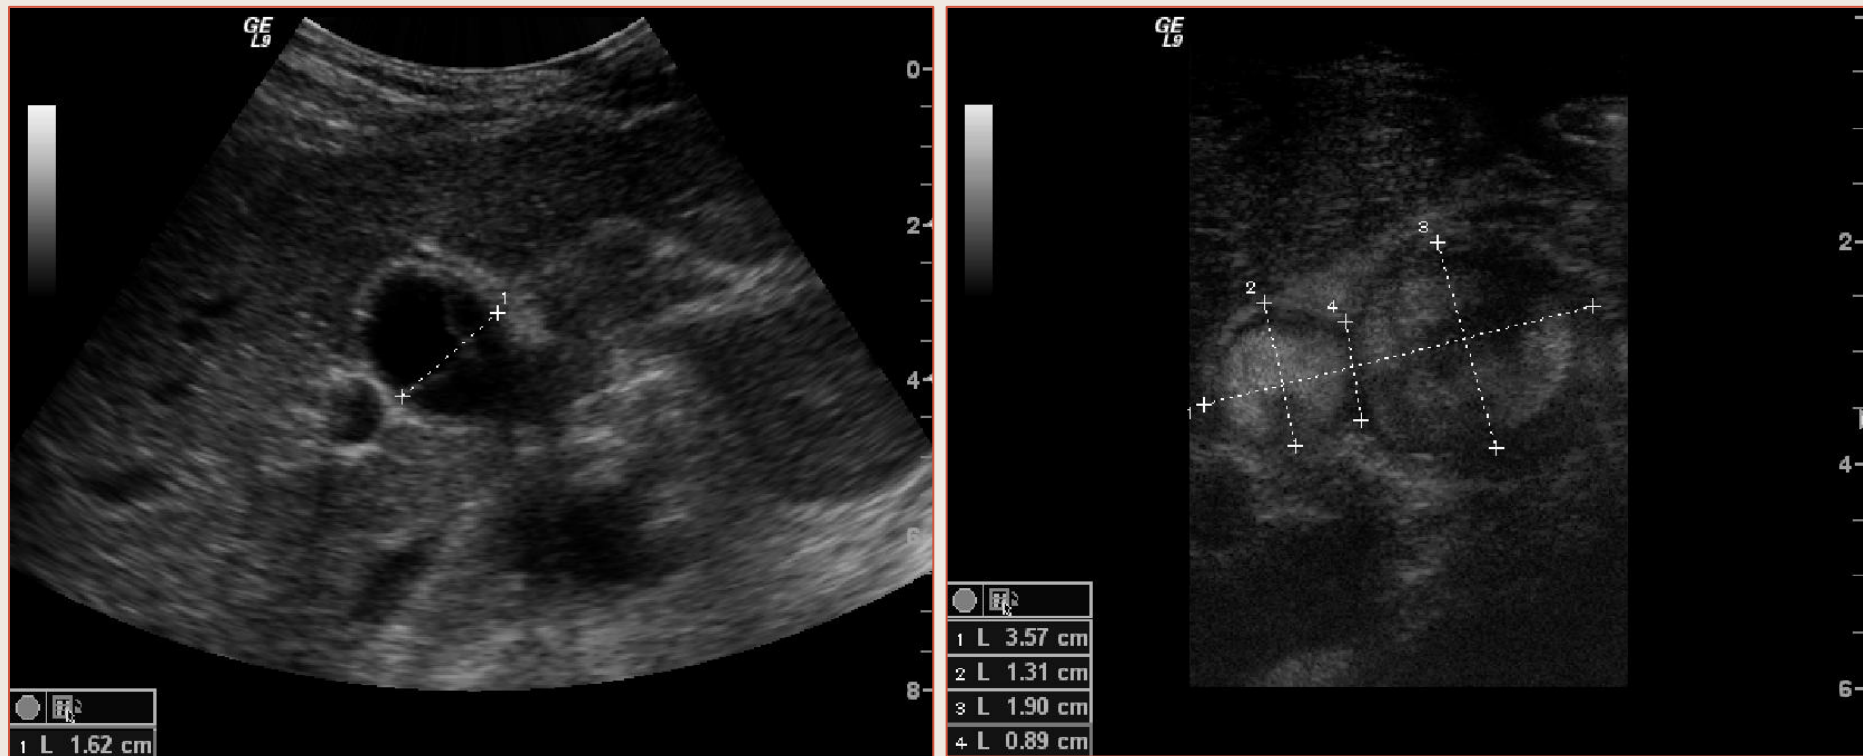

Maladie de Rendu-Osler

Artère Hépatique dilatée

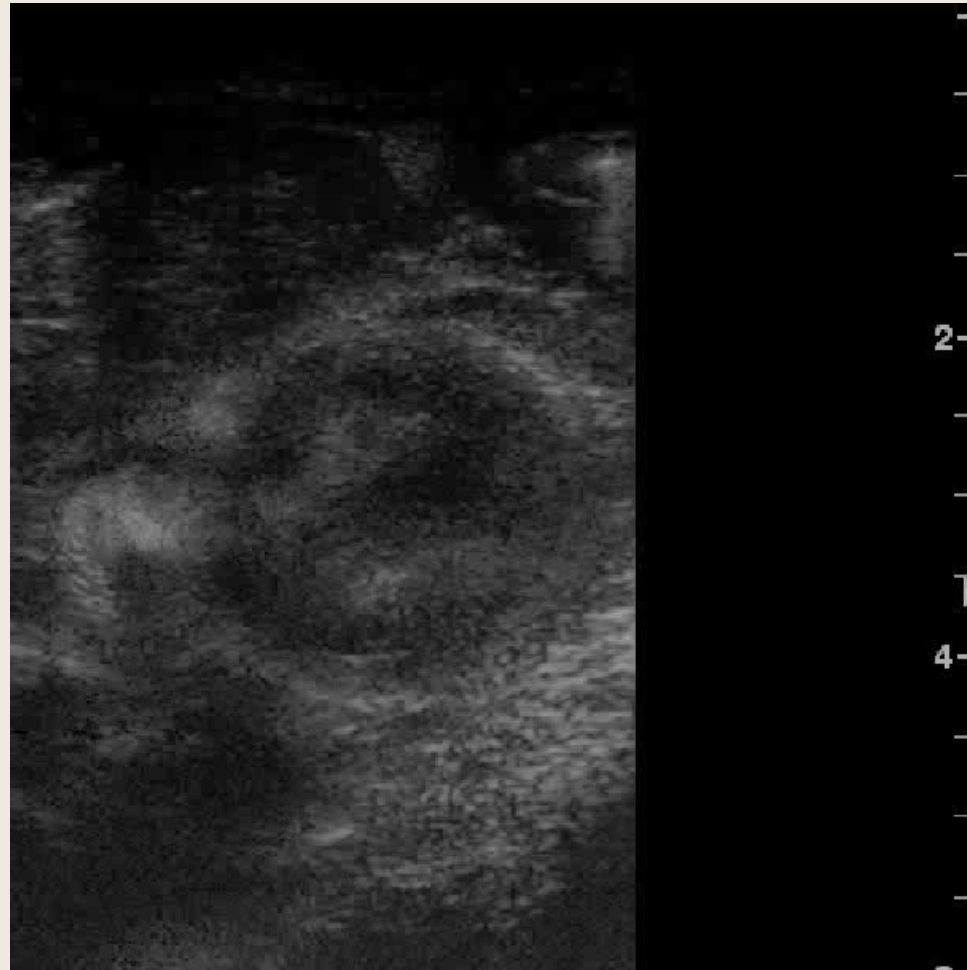

Maladie d'Ehler-Danlos

Anévrismes de l'Artère Hépatique

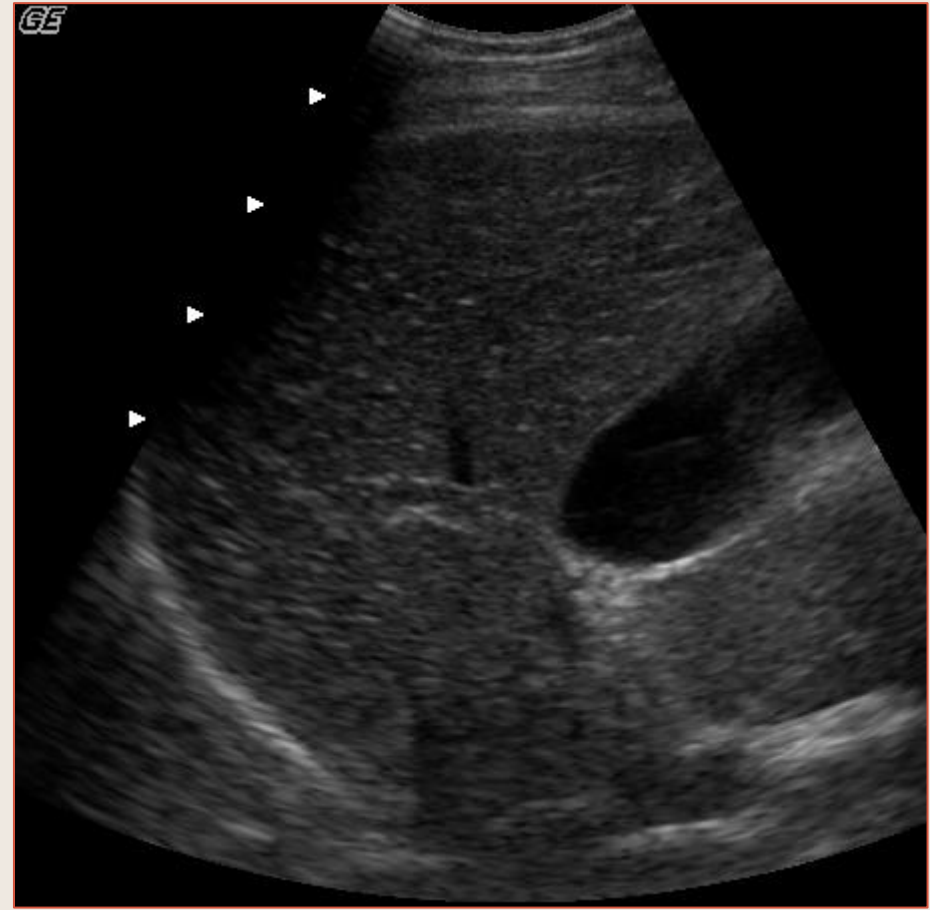

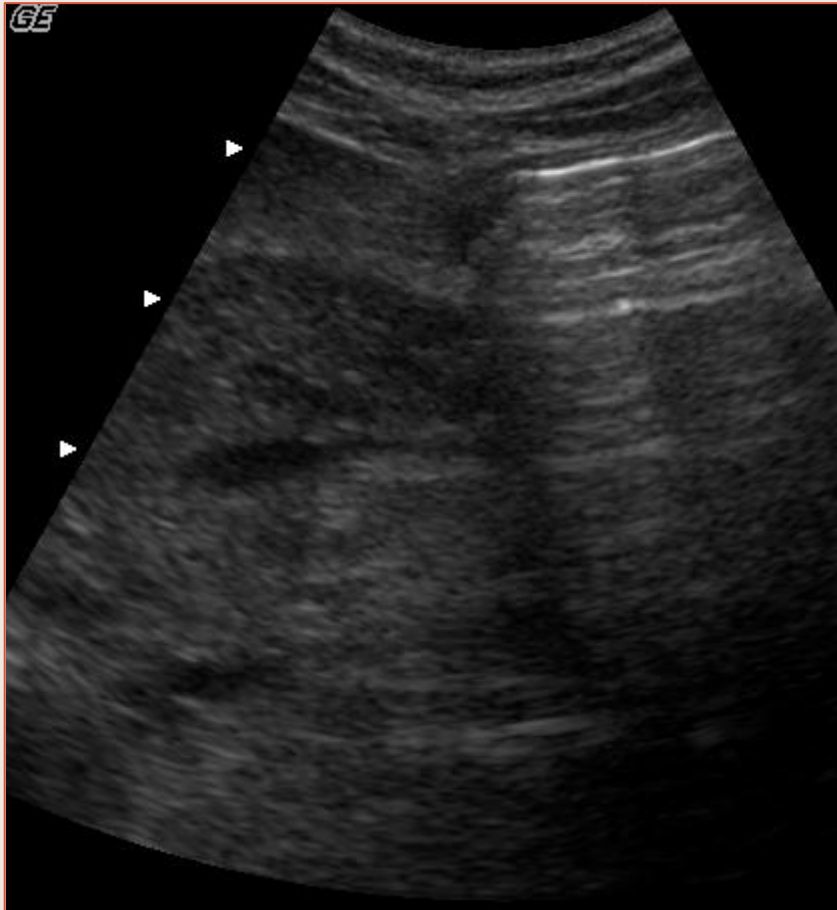

Cutis Hyperelastica - Formes vasculaires : collagène de type III : anévrismes et ruptures artérielles, varicose, prolapsus valvulaire, syndrome de Raynaud, livedo reticularis...

Maladie d'Ehler-Danlos

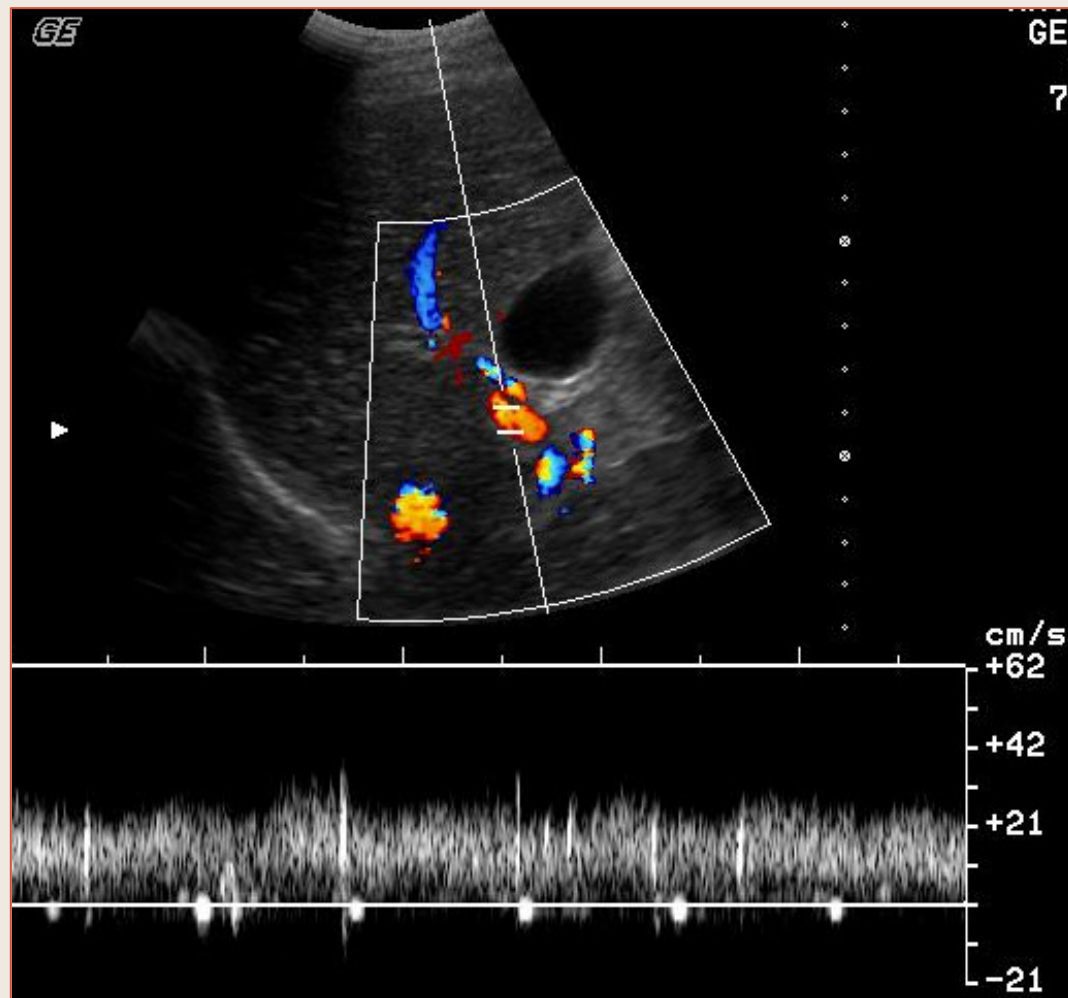

Anévrismes de l'Artère Hépatique

Aéroportie

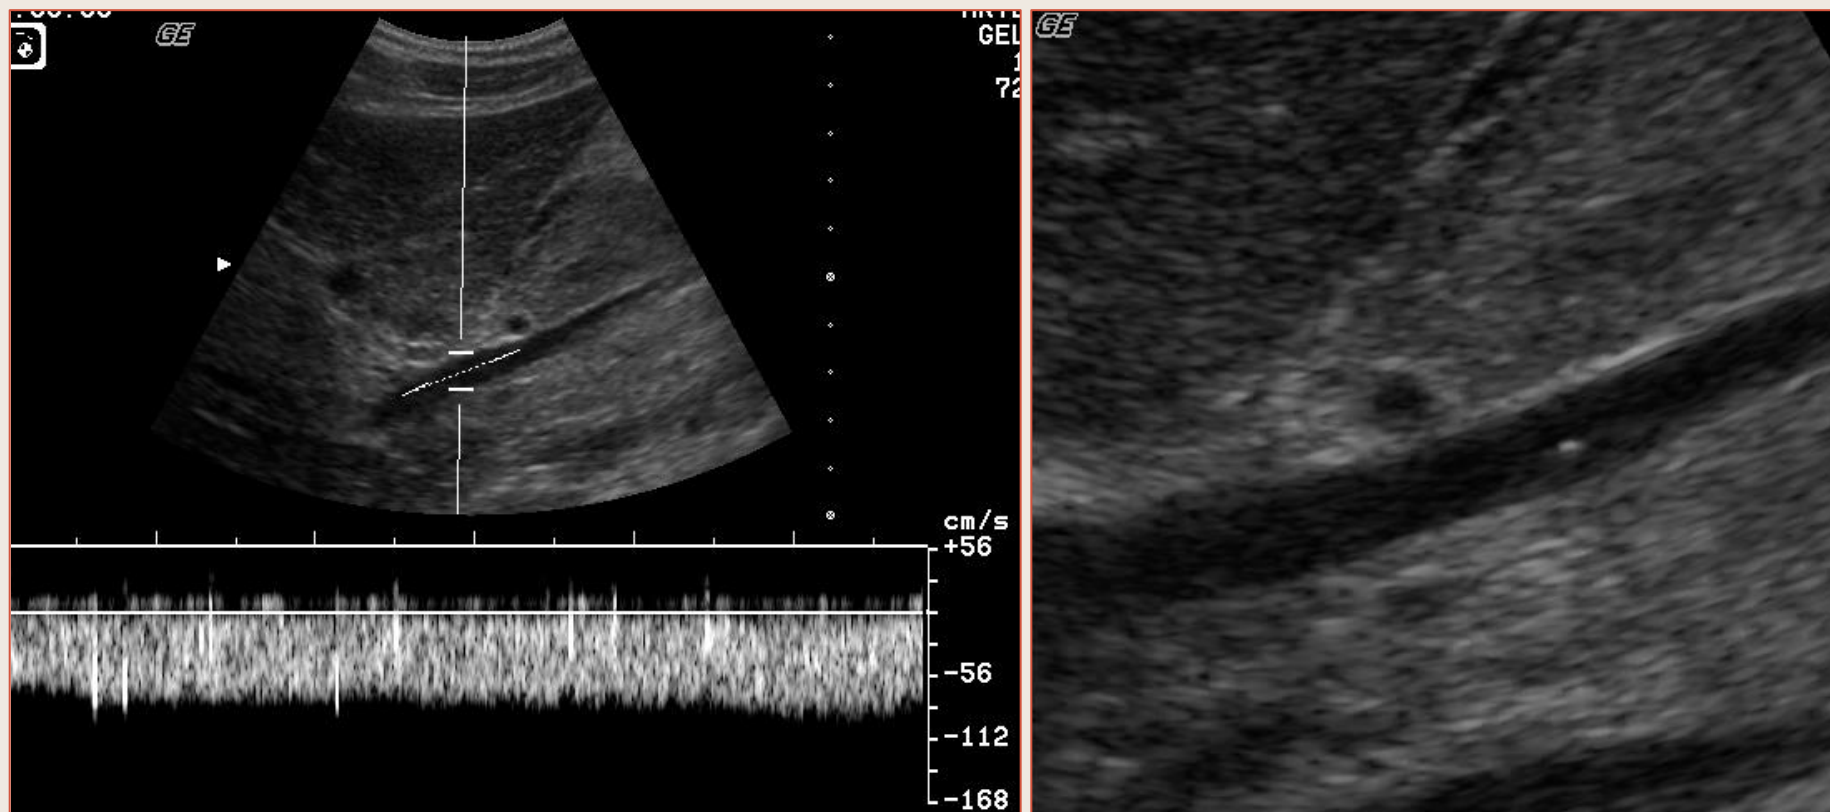

Traumatisme avec dissection de l'artère rénale droite

Aéroportie

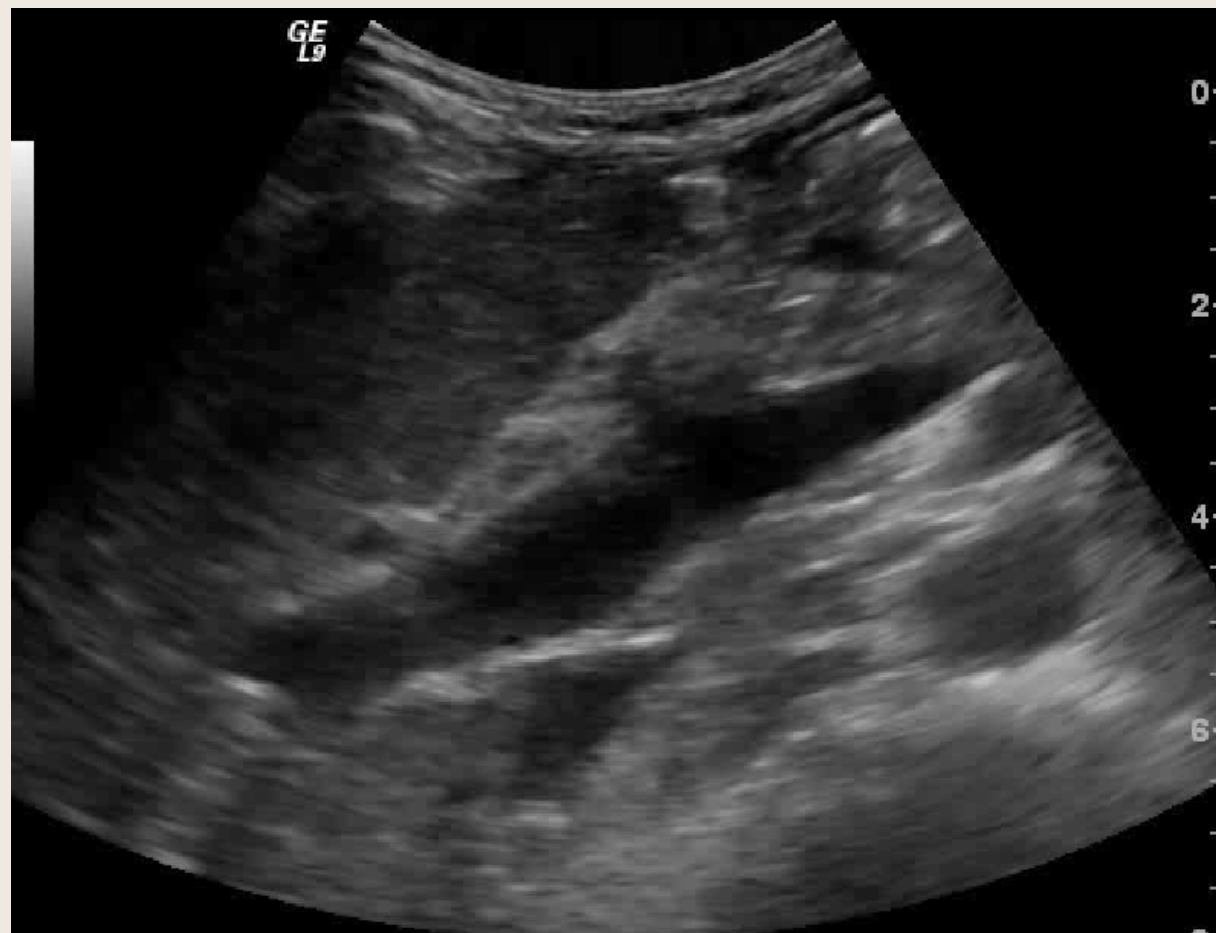

Traumatisme avec dissection de l'artère rénale droite

Aéroportie

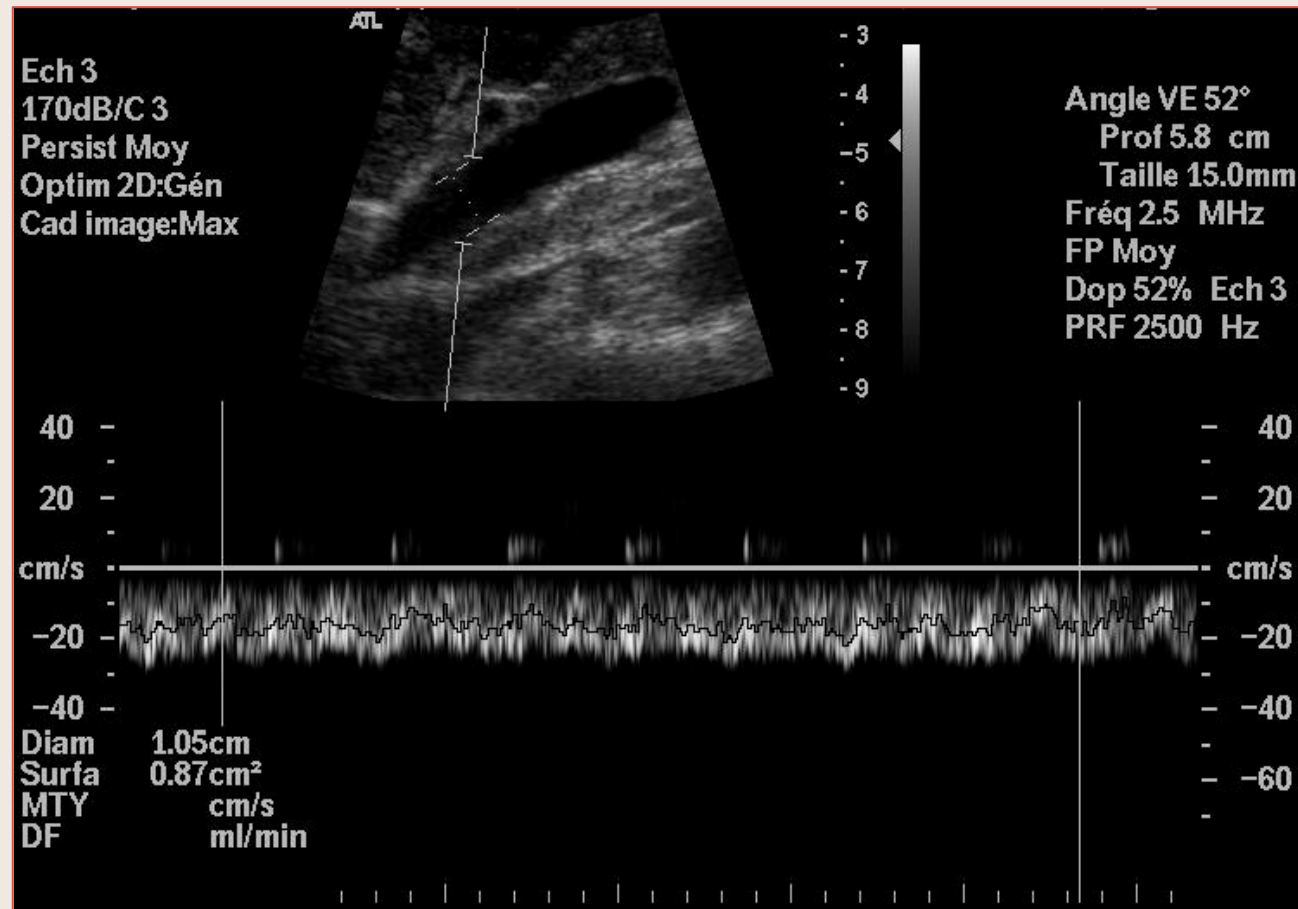

Traumatisme avec dissection de l'artère rénale droite

Aéroportie

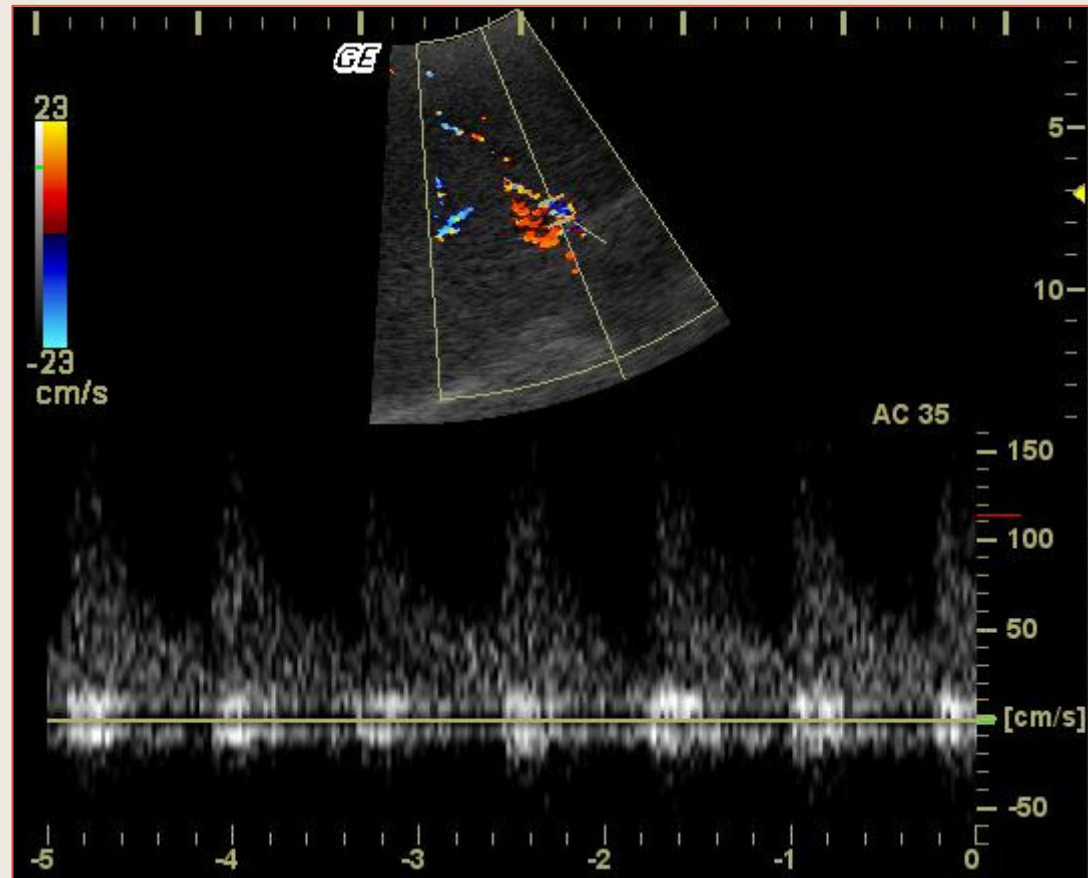

Maladie d'Ehler - Danlos

Hyper-débit portal relatif

Hémoglobininurie nocturne paroxystique

Anémie

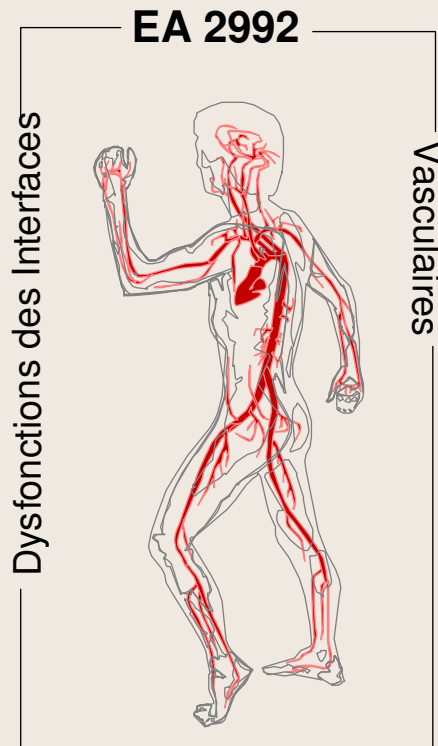

« Fausse sténose » de l'artère hépatique gauche

Variantes anatomiques

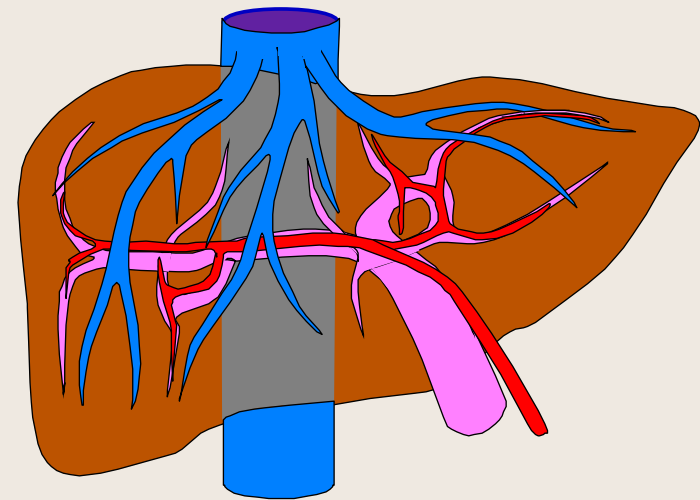

Bifurcation précoce de la veine porte
